

Rationale

The annual public meeting provides an opportunity for the Local School Council to report its activities to the local community and for the election of new members to be held.

Effective and efficient monthly council meetings can energize, focus and provide significant opportunities, not only in the life of individual council members but also in the life of the school itself.

Policy

An Annual Public Meeting of the school council will be held in May of each year. Regular meetings of the school council will be held monthly during the school term. Half of the voting members of the council will constitute a quorum.
